The Department of Mineral Resources and Energy (DMRE) hosts and participates at annual mining and energy investment conferences as part of the promotion of South Africa's opportunities in the minerals and energy industries to investors and stakeholders.

In a highly competitive investment climate, investment attraction requires constant engagements, with the primary purpose of the investment drive being the creation of greater awareness of South Africa's investment landscape and job creation in the mining

I kindly call upon your good office to assist my Department to arrange such participation with the various Heads of Missions based in South Africa.
