06.07.2025 № 12/1095-E

To: **Mohammed Ahmed Sultan Essa Al Jaber**
Ambassador of the Embassy of the United Arab
Emirates in the Russian Federation

Your Excellency,

The All-Russian Center for National Construction Policy (VCNSP) presents its highest compliments and has the honor to invite Your Excellency to participate in the official program of the Final of the 5th Anniversary All-Russian Management Competition “**Leaders of the Construction Industry**,” which will be held on **August 9-10, 2025**, in the city of **Yaroslavl**, as part of the official celebration of the **Builder’s Day of the Russian Federation**.

This key annual event brings together leaders of the construction sector from across Russia and abroad. It will be held with the participation of the **Minister of Construction, Housing and Utilities of the Russian Federation, Mr. Irek Fayzullin**, and **Deputy Prime Minister of the Russian Federation, Mr. Marat Khusnullin**, underscoring its national significance.

The program includes a high-level **international plenary session “Global Infrastructure of the Future: International Cooperation in Construction”**, thematic panel discussions, B2B meetings, strategic sessions, a dedicated exhibition, and official receptions. The forum provides a unique platform for discussing sustainable construction, urban development, and technology exchange in a rapidly changing global environment.

We would be truly honored by Your Excellency’s personal participation in this important event. Additionally, we cordially invite representatives of the UAE Embassy in Moscow to take part in a **special international dialogue in the construction sector**, aimed at strengthening cooperation, sharing best practices, and identifying practical opportunities for joint initiatives.

As part of this session, we will also present the **BRICS City Project** — a strategic **social and infrastructure initiative** of international scale.

Overview: BRICS City Project

BRICS City is an innovative concept for the development of an international urban space in Russia, designed to bring together representatives from BRICS and BRICS+ countries. It is envisioned as a model territory combining residential zones, social infrastructure, cultural and educational centers, and innovation clusters. The project aims to serve as a base for international collaboration, professional exchange, academic mobility, and investment in construction, architecture, and sustainable technologies. BRICS City is both a practical infrastructure project and a symbol of new global partnerships.

To ensure a comfortable and productive visit, the organizing committee will provide **transportation from Moscow to Yaroslavl and back, accommodation, meals, access to all business and cultural events**, and on-site coordination. **There are no visa-related expenses for participants located in Russia.**

We kindly ask you to confirm your participation and the composition of your delegation by **July 16, 2025**.

Event Contact Person:

Ms. Karina Mikheeva, Head of the Department of International Projects of the All-Russian Center for National Construction Policy

(Email: karinamofficial@mail.ru / vcnsp@mail.ru, Phone: +7 (994) 409-95-08, Telegram: @karinamofficial | WhatsApp)

We would be honored by your presence and the participation of representatives of the UAE in this high-level international dialogue. It will contribute significantly to the development of bilateral ties and open new opportunities for cooperation in the construction and infrastructure sectors.

Please accept, Your Excellency, the assurances of our highest consideration.

Enclosure: draft program of the event at 3 pages

Sincerely,

Mr. Aleksandr Moor

Head of the All-Russian Center
for National Construction Policy
