# Prospects for investment cooperation between the Republic of Dagestan and the United Arab Emirates

# PROJECT FOR THE PRODUCTION OF BUILDING MATERIALS

In the gross regional product of the Republic of Dagestan the share of the construction industry is about 17-18%

The Russian waterproofing materials market is steadily increasing by around 10-15 percent a year

The main producers of the waterproofing materials :

DuPont, Tyvek, Onduline, FIBROTEK, Megaizol, EUROVENT, «Penoplex» «Hexa – non-woven materials», JSC «SOFT ROOF» (Samara) and others.

Dagestan has deposits of limestone in such areas as Botlikh, Gergebil, Untsukul, Levashinsky, Karabudakhkent, Kaitag, Derbent, Suleiman-Stal regions.

Near the city of Makhachkala; there are also 15 gypsum deposits. The largest one is Arhitskoye in the Khivasky region.

# PROJECT FOR THE PRODUCTION OF PAINT AND VARNISH MATERIALS

In Russia more than 500 large, medium and small enterprises work in the field of the production of paints and varnishes

Foreign products from the EU and Asia are widely represented in the domestic market as well as the products that are manufactured domestically.

The share of imports of paints and varnishes is about 27-30% of the total market

# PROJECT FOR THE PRODUCTION OF DETERGENTS

Import of household chemicals to the Republic of Dagestan is carried out from the regions of Russia (Volgograd region, St. Petersburg, Moscow) and from Turkey, Germany, Belarus  
Export deliveries from Russia were carried out to the CIS countries - Armenia, Kyrgyzstan, Belarus and Kazakhstan

# LEATHER FACTORY PROJECT

Many Dagestan manufacturers buy leather from Russian regions (Ryazan region).

The Republic of Dagestan is experiencing shortage of processing and leather tanning. In order to create the whole production process.

The creation of a tannery will be a great impetus for the development of the shoe industry and the production of leather products.

We could offer partners from the United Arab Emirates to consider the possibility of creating a leather factory and a factory for the production of glue and accessories for shoes on the territory of the Republic of Dagestan.

# PROJECT FOR THE CONSTRUCTION OF A WOOL WASHING AND WOOL PROCESSING ENTERPRISE

The Republic of Dagestan produces 25% of all russian wool.  
About 14 thousand tons of wool are produced  
in the republic every year.  
The total processing capacity is 7 thousand tons

Main wool processing factories:  
SPOK M-1, LLC – «Chance-KM»

# PROJECT TO CREATE PROCESSING FACTORIES

The share of agriculture in the gross regional product of the Republic of Dagestan is more than 18 percent.

Creation of a complex for the storage, refinement of products, with related services - loading and unloading, transportation, washing vegetables, cutting and deboning of meat with the possibility of exporting products to border states and other areas

This will make it possible to produce products of a higher processing level with a higher added value

# PHARMACOLOGICAL CLUSTER PROJECT

It is possible to create production of pharmacological raw materials or establish the production of medicinal products

Tasks of the pharmaceutical and medical industry: the formation of scientific, technological and industrial potential

Involved organizations – Dagestan Agrarian University, Federal State Budget Scientific Institution Far Eastern Research Institute of Agriculture, Agricultural production cooperative «Agricultural company them. Daniyalov»
