# About Nordagri

- \* Leading producer of peat substrates, biostimulants, and fertilizers
- \* 10+ years of experience
- \* Serving over 60 countries
- \* Trusted by professionals in all climates

## Nordagri Mission

Nord Agri mission is to supply customers with ecological and innovative high quality peat moss products for different types of applications, while increasing crop yield and improving soil quality.

## Nordagri Vision

Nord Agri vision is to produce the highest quality peat moss products with respect to our nature and values and offer the most efficient logistics solutions to any destination in the world.

# Our lines

- \* Nordagri Professional  
Natural peat and Peat  
substrates

- \* Nordagri Extract –  
Organic Biostimulants and  
organomineral fertilizers

# What Makes Our Peat Substrates Special?

- \* Baltic peat – high quality, sustainable
- \* Precision in EC, pH, moisture, and texture
- \* Formulated for specific crops
- \* Available in various structures and sizes

# Substrate Product Range

- \* Propagation substrates
- \* Potting & bedding mixes
- \* Big-pot & container substrates
- \* Berry & soft fruit blends
- \* Floriculture-specific substrates

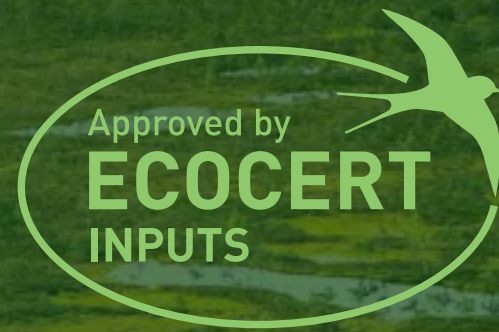

# Additives & Customization

- \* ECONUTRI – organic additive from lakeweed
- \* Perlite & clay – structure enhancers
- \* Fertilizer types – organic & organomineral
- \* Eco options: wood fiber, compost, etc.

# Sustainability & Certifications

- \* RPP certified peat harvesting
- \* ISO 9001 & 14001
- \* Certified organic products
- \* Baltic peatlands harvested responsibly

# Introducing Lakeweed

- \* Organic lake sediment (sapropel)
- \* High in humic/fulvic acids, amino acids, trace minerals
- \* Improves soil structure, water retention, and fertility

# Lakeweed Biostimulants

100%  
Organic

- \* Lakeweed Biostimulant yield boost, water savings
- \* Lakeweed Amino stress resistance, flowering support
- \* Available in 1L, 5L, 20L, 1000L sizes

# Lakeweed Organomineral Fertilizers

- \* Growth Stage (7-7-8)  
Full nutrition support
- \* Flower Stage (5-16-6)  
Flowering enhancement
- \* Fruit Stage (4.5-5-15)  
Yield and fruiting improvement

# Application Versatility

- \* Seed treatment
- \* Foliar spray
- \* Fertigation & drip irrigation
- \* Compatible with hydroponics and field crops

# Logistics & Delivery

- ✱ Global delivery – road, sea, air, rail
- ✱ Package sizes: 10L to Big Bale
- ✱ Custom labels and private branding
- ✱ Door-to-door service available

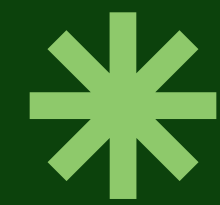

# Why Choose Nordagri?

Superior  
quality

Organic &  
certified

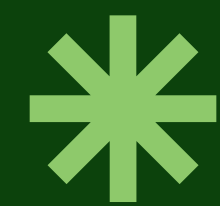

Strong client  
support

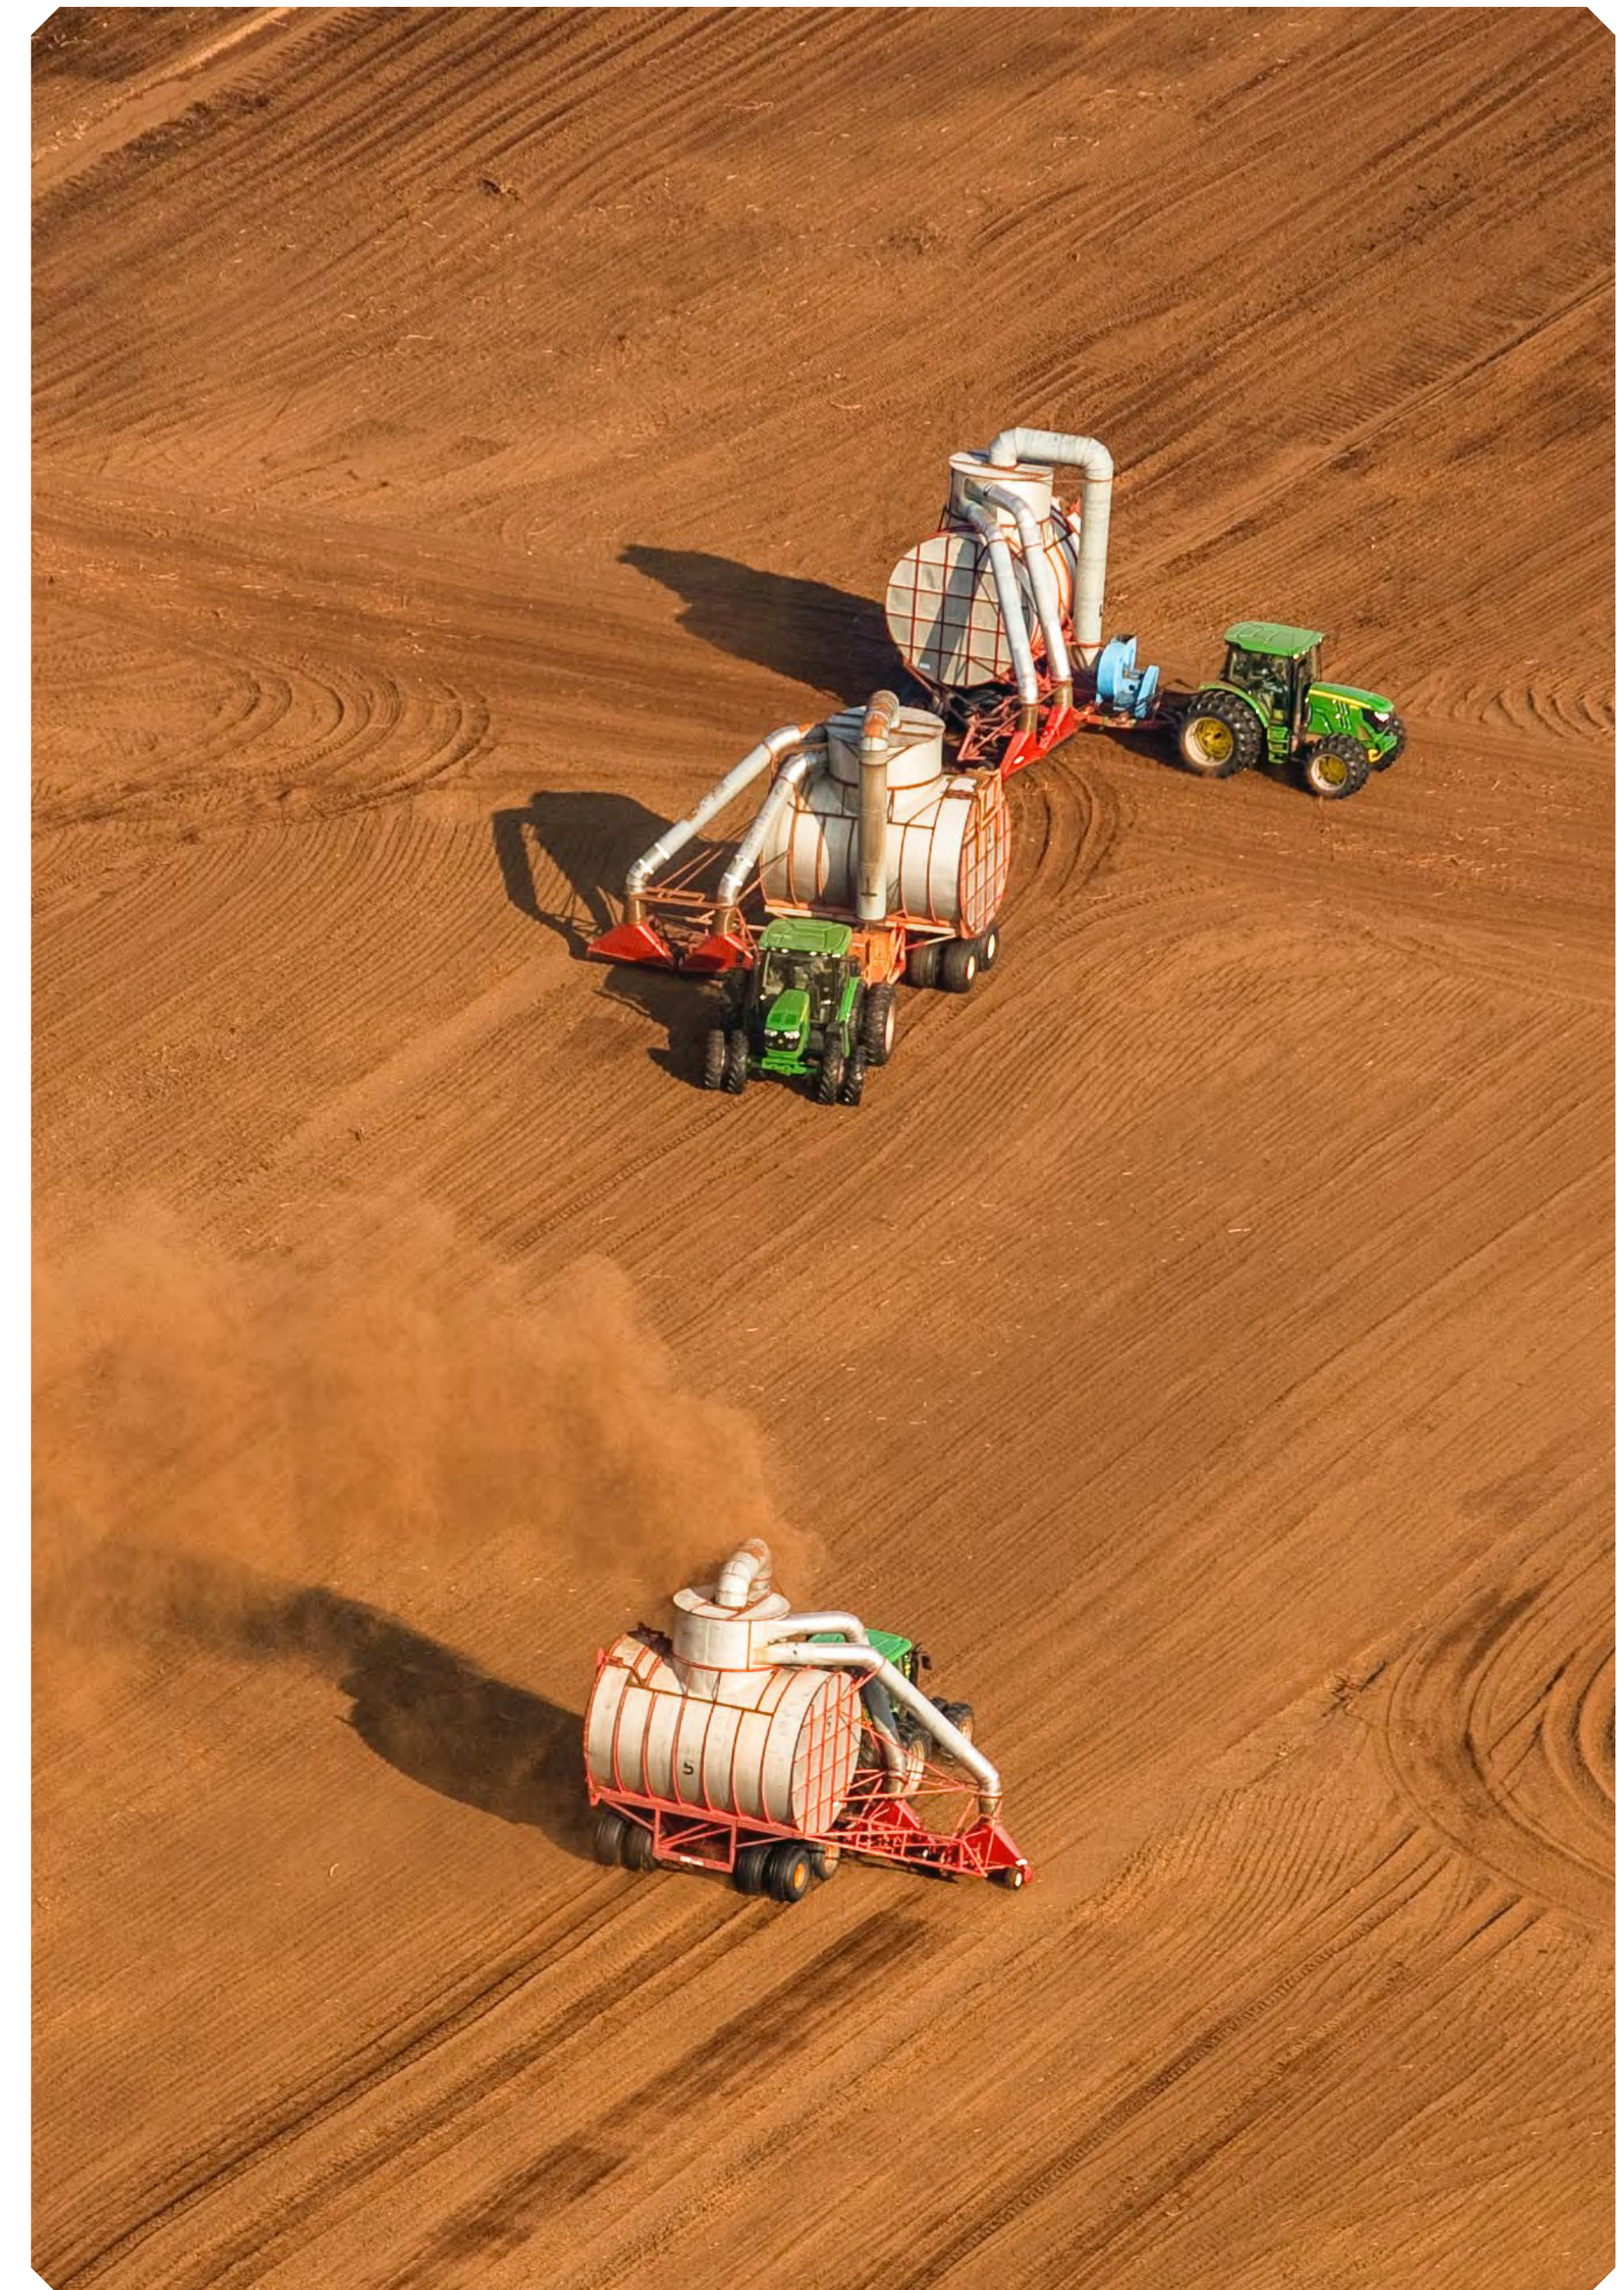

Proven global  
performance

Wide range  
for all crops

Full marketing  
support
