OUR PROJECTS IN PROGRESS AND ABOUT TO START

## Brief Overview of **OFMAS International SA**

OFMAS is a construction and public works company (BTP) specializing in road construction, sanitation, urban development, and the building sector.

With a capital of one billion CFA francs and an annual turnover approaching fifty billion CFA francs in recent years, our financial results are as follows:

***48,848,126,017 FCFA in 2024, 45,514,367,379 FCFA in 2023, and 26,432,195,642 FCFA in 2022.***

We have successfully delivered dozens of projects for a diverse clientele, spanning both the public and private sectors.

The company owns a fleet of over 1,000 pieces of heavy equipment, along with several production centers for concrete, asphalt mix, and bitumen emulsion. Our workforce includes nearly 1,200 permanent employees and 3,500 seasonal workers from a variety of backgrounds.

# OFMAS

*"OUR GRAND AMBITIONS FOR AFRICAN INFRASTRUCTURE"*

OFMAS is firmly committed to promoting quality, safety, and environmental protection across all its operations.

The company aspires to become the first Beninese national enterprise to obtain triple ISO certification (ISO 9001, 14001, and 45001), aiming to be recognized as the national benchmark in the construction and public works sector.

## OUR PARTNERS

We would first like to acknowledge the **Ministry of Economy and Finance (MEF)** for laying strong foundations in mobilizing project funding. We are grateful to the **Ministries of Infrastructure, Transport, Living Environment, and Sustainable Development** for their support and their trust in our expertise in delivering these major projects.

We are proud to work alongside **SIRAT and SIMAU**, two key players in urban development, to help shape the future of our cities and contribute to the growth of our country. We also recognize **AGETUR**, with whom OFMAS is carrying out several major projects under the **PAPC (Stormwater Drainage Program for the City of Cotonou)**.

We also extend our sincere appreciation to our banking partners — **CORIS Bank, NSIA Bank, BIIC, and Banque Atlantique** — for their continued financial support and confidence in our company.

We are confident that our strong partnerships and mutual collaboration will continue to drive the success of our future projects.

Finally, we are truly proud of the results of these partnerships, which are significantly contributing to the transformation of Benin.

- 

**10 REHABILITATION AND IMPROVEMENT OF ACCESS AND TRANSIT ROADS IN COTONOU (ATC): LOT ATC-03**

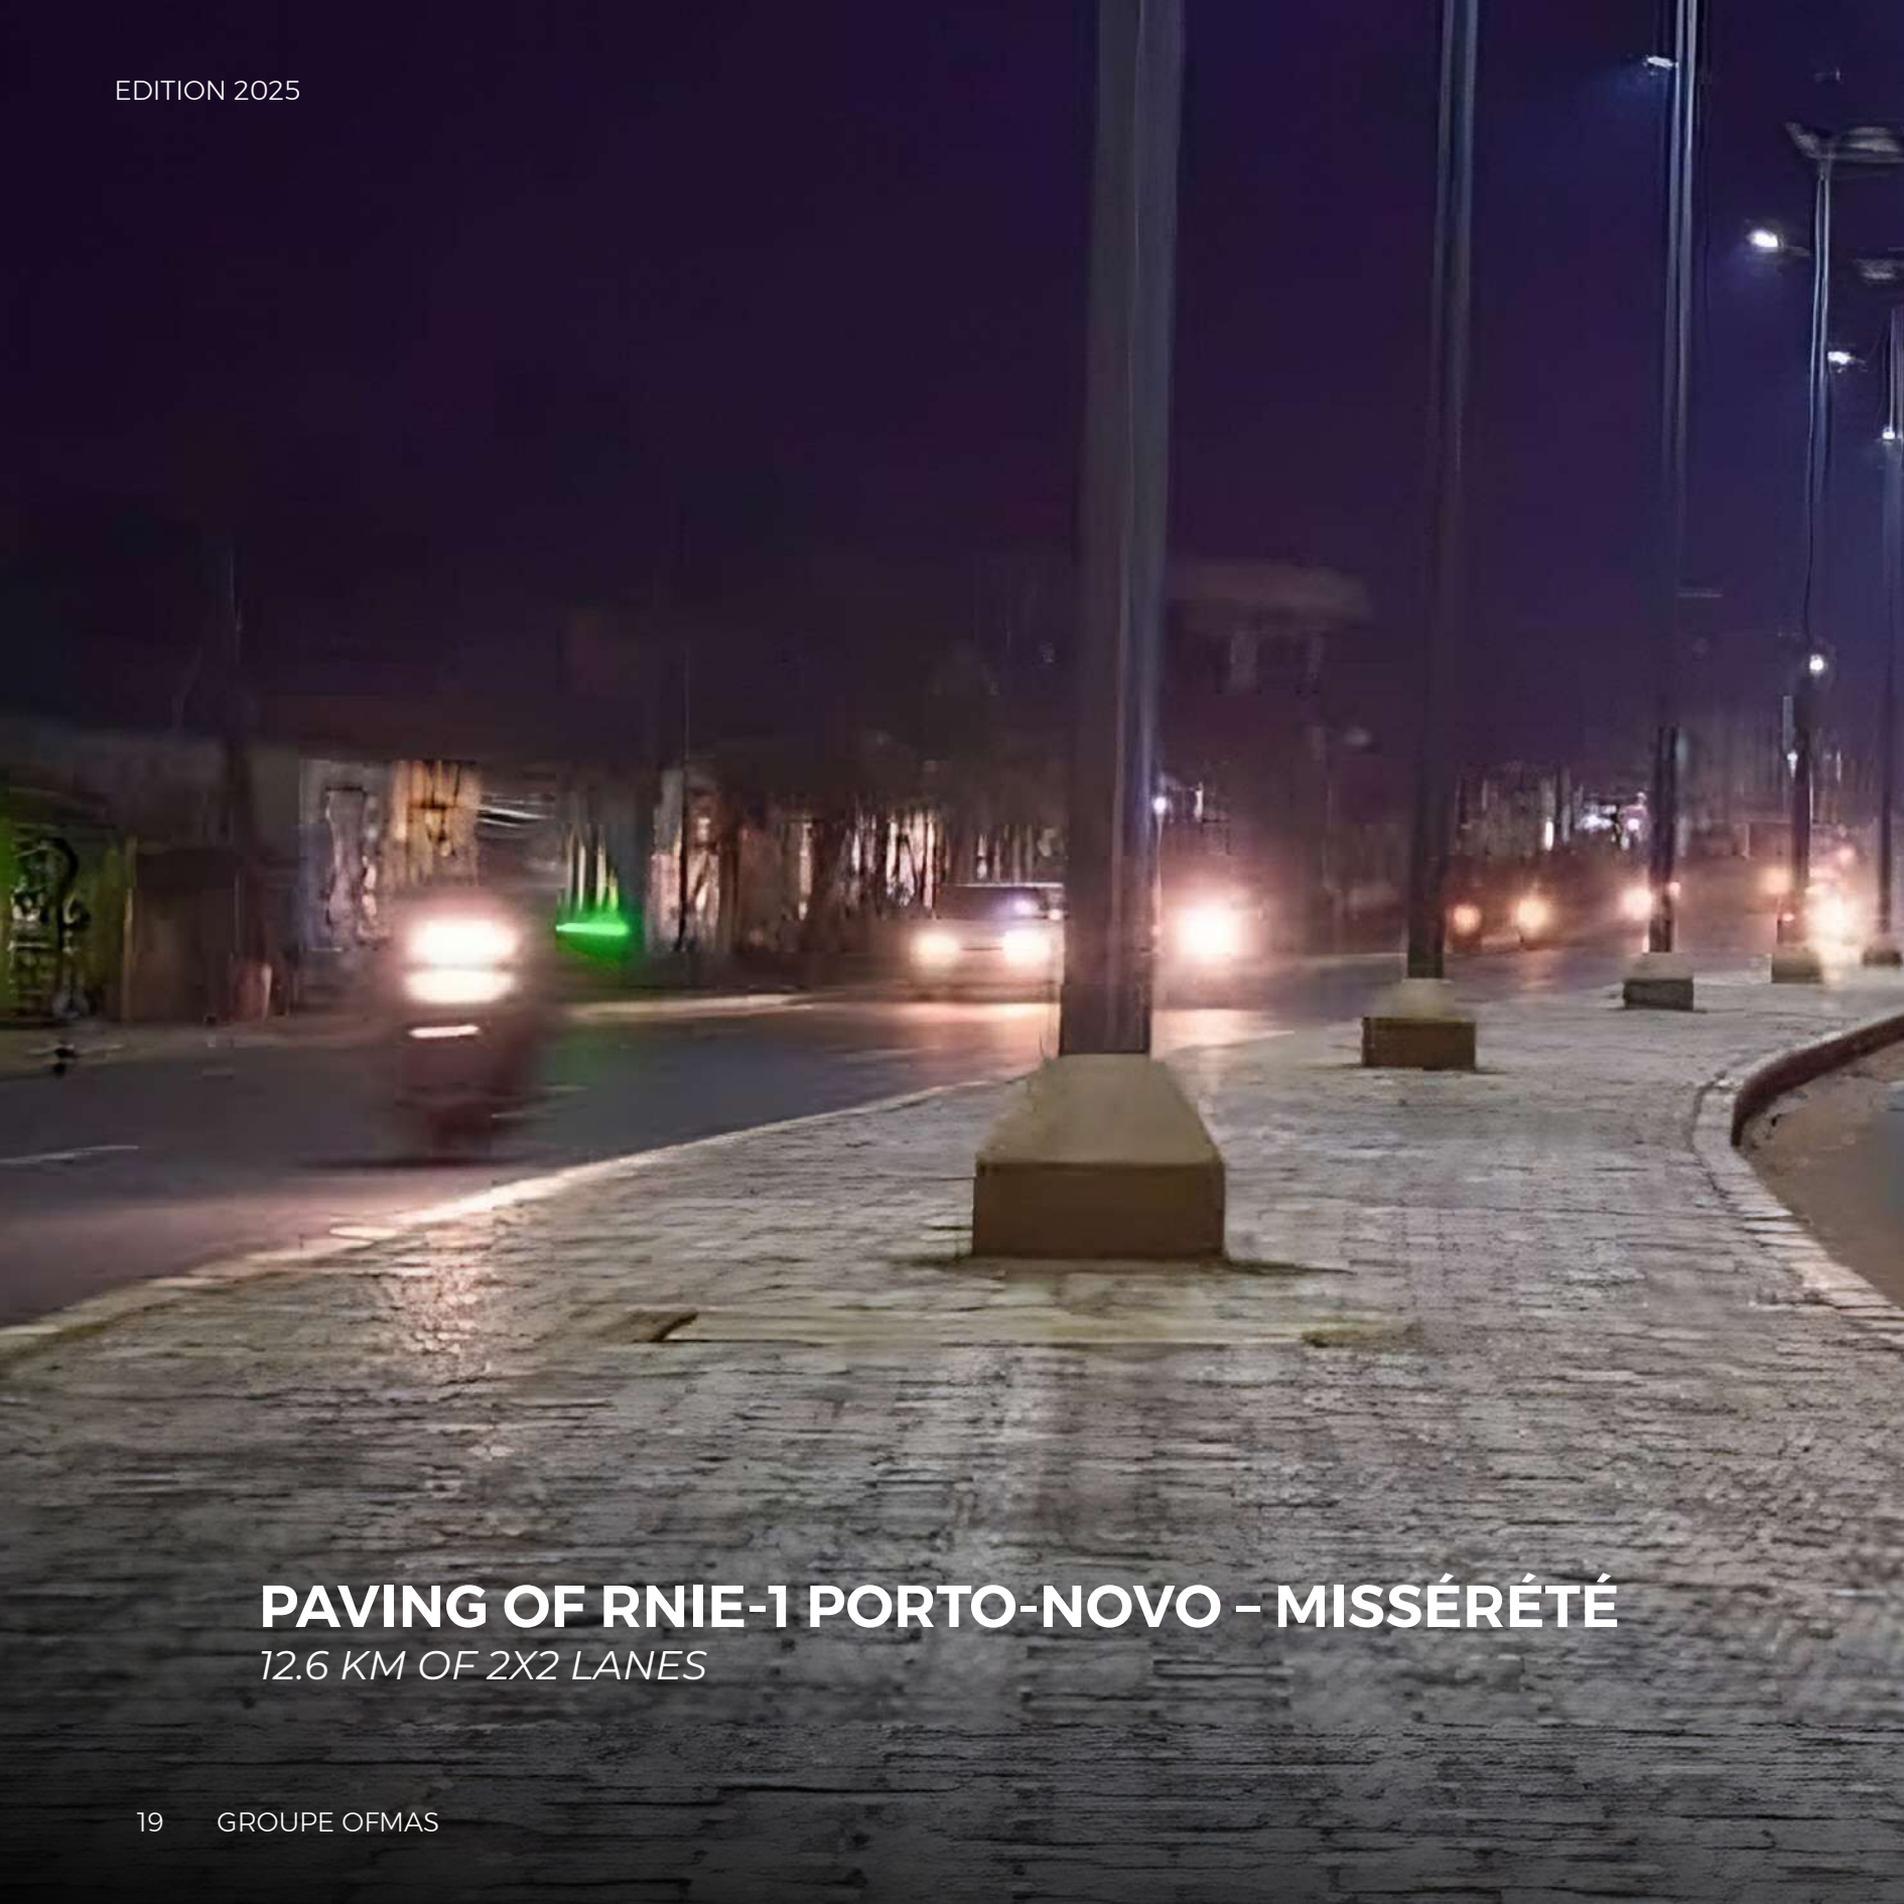

## GALLERY OF OUR ACHIEVEMENTS :

### PROJECTS IN PICTURES

*OFMAS has successfully completed numerous high-quality road construction and paving projects, meeting the highest industry standards. We take pride in our work and are pleased to share it with you. Each of our major achievements has been carefully documented through images, showcasing our expertise and craftsmanship. These visuals not only highlight our capabilities but also promote the remarkable projects in which we have played a key role. We believe these accomplishments reflect our strong commitment to quality, innovation, and sustainability.*

A nighttime photograph of a paved road. In the foreground, a concrete pillar stands on a paved surface. The road curves to the right, with several more concrete pillars spaced along its edge. In the background, several cars are driving, their headlights illuminating the road. The scene is dark, with the primary light sources being the car headlights and streetlights.

**PAVING OF RNIE-1 PORTO-NOVO – MISSÉRÉTÉ**  
*12.6 KM OF 2X2 LANES*

**MISSÉRÉTÉ ENTRANCE**

# OUR VISION AHEAD

OUR ONGOING AND NEWLY  
LAUNCHED PROJECTS

## SOME OF OUR ONGOING PROJECTS

- **Rehabilitation works on the Porto-Novo–Avrankou–Igolo road (27.44 km) + a 40-meter bridge.**
- **Rehabilitation works on the Vakon–Avagbodji–Aguegue route (13.2 km) + a 100-meter bridge.**
- **Rehabilitation works on the Akpro Missereté–Dangbo–Kpédékpo road, with a length of 89 km + a 30-meter bridge.**
- **Site development works for the construction of 173 affordable social housing units in Porto-Novo.**
- **Road improvement works in the city of Ouidah.**
- **Stormwater drainage project in Cotonou: construction of stormwater drainage collectors in the city of Cotonou – LOT LMD.**

These projects demonstrate our company's expertise in the construction and public works sector and our commitment to sustainable development and improving living conditions for the population.

## OUR UPCOMING PROJECTS

- **Construction works of three (03) retention basins, collectors, and roads  
– LOT 1\_BOAD03 (BR AAS16BR AAS26BR AAS3)**

We are confident that these projects will have a positive impact on local communities by improving living conditions and creating jobs for the residents. We look forward to seeing these projects come to fruition and continuing to contribute to the development of our countries in line with the vision of our leaders.

*We thank our dedicated teams for their hard work, and especially everyone who trusts and supports us daily!  
Thank you, Merci!*

**“OUR BOLD AMBITIONS FOR AFRICAN  
INFRASTRUCTURE”**

*The recent transformation of our cities and rural areas reassures us that we are steadily moving toward the fulfillment of a vision we believed in over 30 years ago.*
