Preamble:

The Islamic Chamber of Commerce and Development (ICCD) in collaboration with the National Confederation of Entrepreneurs (Employers) Organizations of the Republic of Azerbaijan (ASK) will be organizing the Sustainable Agriculture Investment Forum in Baku Expo Center, Azerbaijan, on May 14 - 15, 2025.

What is Sustainable Agriculture

Sustainable Agriculture is a type of agriculture that focuses on producing long term crops and livestock while having minimal effects on the environment. This type of agriculture tries to find a good balance between the need for food production and the preservation of the ecological system within the environment.

To be sustainable, agriculture must meet the needs of present and future generations for its products and services, while ensuring profitability, environmental health and social and economic equity. Sustainable agriculture plays a crucial role in addressing the challenges posed by climate change and promoting environmental stewardship.

OBJECTIVES OF THE FORUM

Introduce Baku as a capital of Sustainable Agriculture in OIC.

Build a permanent mechanism to promote investment opportunities in sustainable agriculture in Azerbaijan, OIC and the rest of the world.

Contribute to building trade relations within the OIC system, and between Azerbaijan and the rest of the world.

Encourage the investment and support partnerships in the field of climate financing.

Utilize Islamic Banking system as a core tool of support sustainable agriculture and climate adaptation.

Increase agricultural productivity by meeting the capital requirements through the Islamic Banking system.

Enhance participants understanding of climate adaptation and climate finance mechanisms and how they can be applied to sustainable agriculture.

Introduce the most important components of Azerbaijan to the Islamic world.

OUTLINE OF THE FORUM

This international forum aims to introduce Baku as the capital of Sustainable Agriculture in OIC. The Forum will be held physically, through knowledge-sharing panel discussions, workshops, networking sessions and B2B meetings among the business community from OIC and other countries.

The forum will create a global platform to share best practices and innovations in the field of sustainable agriculture and its huge impact on climate change adaptation and mitigation efforts in order to contribute to climate resilience, reduce greenhouse gas emissions and foster sustainable development across the world. The forum will provide an opportunity to explore the best practices in sustainable agriculture, and ways to use Islamic banking as a powerful tool to overcome agriculture challenges.

Presentation of Shields & Group Photo

Panel – 1 CEO Insights: Investment in Sustainable Agriculture – Opportunities for the Private Sector

This panel will bring together CEOs of leading agriculture organizations to explore the tremendous potential in the sustainable agriculture sector. This discussion aims to redefine the future of business in a rapidly changing world shaped by climate change and the imperative of sustainability. By investing in sustainable farming ventures, investors play a vital role in combatting climate change, protecting biodiversity, conserving water resources, and reducing the use of harmful chemicals.

11:00 – 12:00 hrs

Panel - 2: Empowering SMEs in Agriculture for Sustainable Food Security

This panel discussion will highlight the significance of SMEs in Agriculture for sustainable food security to cater the growing food demand. The SME sector is playing a crucial role in the agriculture and food sector and their effectiveness will help in increasing the overall agriculture production

12:00 – 13:00 hrs

Workshops - Agricultural Trade, Value Chains and Food Markets

Agricultural Trade, Value Chains and Food Markets Workshop will highlight the challenges faced by the traders, value chains and food markets. The workshop will highlight the importance and the available resources to manage the value chains in order to minimize the food loss and the wastage. It will address complex challenges in the global food system, such as food security, environmental degradation & reduce poverty

13:45 – 14:30 hrs

Precision Agriculture

Precision agriculture means application of precise and correct number of inputs like water, fertilizer, pesticides etc. at the correct time to the crop for

increasing its productivity and maximizing its yields. The adoption of modern farming techniques like precision farming and digital smart agriculture becomes imperative to ensure sustainable food production and the future prosperity.

14:30 – 15:00 hrs
