

Honorable Embassy of the United Arab Emirates,

this letter to express and confirm our interest in evaluating investments in your Country, ensuring the support that our technology can offer to Companies and Entities operating in your territory. To this end, aimed at assisting your Country and finding possible partners suited to our company profile and useful for the common purpose, we'll be pleased to examine every option, also evaluating investments, the opening of new offices or other kind of territorial coverage.

As part of our mission to enable Artificial Intelligence to support strategic decisions, the chance to collaborate with your Country, so advanced and sensitive to the developments of new technologies, represents a remarkable opportunity and a crucial step for the International growth process we are successfully facing.

Furthermore, we are deeply honored by the interest you kindly expressed in considering a collaboration with our Company, whose great expectation is creating valuable partnerships, which would be all the more long-lasting and prosperous, the greater the value we'd be able to create together.

Best regards.

Michele Grazioli
