Partnership Management System Policy

This Document is the property of Ajman Chamber and may contain information that is considered confidential and private to the Chamber's work. Copying, reproducing, or transmitting the data and information contained in this document, in whole or in part, by any means, whether manual or electronic, is strictly prohibited without prior official permission from the Chamber.

Ajman Chamber is committed to implementing a partnership management system aimed at building sustainable and effective relationships with partners. The Chamber operates on the principles of trust and respect, ensuring mutual benefit, with a focus on collaborative efforts to achieve shared goals, and the exchange of expertise, resources, and knowledge.

The Chamber's Commitments:

- Establish a management system for partnership management that aligns with the Chamber's business context, vision, and strategic directions.
- Conduct periodic reviews of the partnership management system's performance, identifying areas for improvement and lessons learned to ensure continuous improvement.
- Set and monitor objectives specific to the partnership management system and ensure their regular achievement.
- Comply with all laws and regulations related to work and the partnership management system.
- Identify areas for joint work and future opportunities, establish the necessary frameworks for partnerships, and provide the required support.
- Promote awareness of the partnership management system and enhance commitment to it among the employees of Ajman Chamber.

Ajman Chamber ensures an annual review of the Partnership Management System Policy or whenever significant changes occur to ensure the system's effectiveness and relevance.
